

## Class - Basic Bead Stringing with Knots

### 1 Day Class Curriculum:

In this one day basic bead stringing class each student will make a bracelet using bead tips to connect to the clasp and including a knot between each bead. The use of the bead tip allows a beginning student to create a finished piece that looks professional while requiring less practice.

A separate class is necessary for stringing beads such as pearls which uses French wire instead of bead tips.

#### Supply List for Class (provided by the teacher)

- Glass beads
- Thread
- Beading wires
- Bead tips
- Clasps
- Thread snipping scissors
- Small needle nose pliers
- Super glue
